This gun has been recently serviced by Terry Dyer using our standard work order of “Make it Right”. What this means to you, is that once you receive your gun, you will be able to go out and enjoy it to its fullest (or stick it in the safe, knowing it is ready to go), because no expense has been spared in making sure it runs to its full potential. Buy HK-53A2 Pre-May Machine Gun.

The checklist that each gun received includes the following – HK-53A2 Pre-May Machine Gun for sale

- \* Complete visual inspection
- \* Initial test firing for function and safety
- \* Re-engraving of the model when applicable

- \* As necessary, strip the gun to bare metal, parkerize the base metal to act as a primer to promote better paint adhesion, and finally apply a special 3 part paint to bring the gun back to better than factory appearance
- \* Verify headspace, timing, check bolt, extractor, etc.
- \* Modify for a magazine paddle release when needed
- \* Install the proper trigger housing
- \* Add a 3-lug adapter or replace the barrel as needed
- \* Final test firing and cleaning

There is a long waiting list for any good HK smith to properly inspect and upgrade an HK product – we have taken that worry and waited out of the equation so we can offer the finest HKs on the market.
