The inaugural ODI World Cup was introduced 48 years ago. There have been numerous modifications to the game's concept since it was first introduced as a 60-over version with teams playing in only whites. The game of cricket has developed with the advancement of technology and the demand of spectators worldwide, with overs reduced to 50 and the introduction of coloured shirts with jersey numbers and names as coloured broadcasts beginning to take over the world. Nevertheless, we revert to written records or surviving eyewitnesses to see the game play out in this manner over time.

At the Narendra Modi Stadium in Ahmedabad on Sunday, November 19, the two cricketing giants, Australia and India, squared off in the championship match. After reaching the final hurdle, Australia remained composed and defeated India by six wickets to win their sixth ODI World Cup.
