

# In-vitro Toxicology Testing Market Size, Analysis and Forecast 2031

The [In-vitro Toxicology Testing Market](#) in 2023 is US\$ 12.43 billion, and is expected to reach US\$ 28.7 billion by 2031 at a CAGR of 11.02%.

FutureWise Research published a report that analyzes In-vitro Toxicology Testing Market trends to predict the market's growth. The report begins with a description of the business environment and explains the commercial summary of the chain structure. Based on the market trends and driving factors presented in the report, clients will be able to plan the roadmap for their products and services taking into account various socio-economic factors. Additionally, it illustrates the corporate profiles and situation of competitive landscape amongst numerous associated corporations including the analysis of market evaluation and options associated with the worth chain. This In-vitro Toxicology Testing research report provides insights on market overview, market segmentation, current and future pricing, growth analysis, competitive landscape and other such premium insights within the forecast period.

**In-vitro Toxicology Testing Market Segmentation:**  
**By Technology**

- Cell Culture Technology
- High Throughput Technology
- Molecular Imaging
- OMICS Technology

### **By Method**

- Cellular Assays
- Biochemical Assays
- In-silico
- Ex-vivo

### **By Application**

- Systemic Toxicology
- Dermal Toxicity
- Endocrine Disruption
- Occular Toxicity

### **By End Use**

- Pharmaceutical Industry
- Cosmetic and Household Products
- Diagnostics
- Chemical Industry
- Food Industry

### **By Region**

- North America
- Europe
- Asia Pacific
- Latin America
- Middle East and Africa

### **Key Market Players:**

- Agilent Technologies Inc.
- Abbott Laboratories (Alere Inc.)
- Bio-Rad Laboratories Inc.
- Merck KGaA
- Charles River Laboratories International Inc.

- Thermo Fisher Scientific Inc.
- Catalent Inc.
- Eurofins Scientific
- GE Healthcare
- Quest Diagnostics Inc.
- LabCorp and EVOTEC
- Evotec

#### **Competitive Landscape:**

- Tier one players - market players with a significant share of the market
- Tier two players
- Players with rapid growth
- New Entries

#### **FutureWise Key Takeaways:**

- Prospects for growth
- Analysis of SWOT
- Key trends
- Key Data-points affecting market growth

#### **Objectives of the Study:**

- To provide report with an in-depth analysis of the In-vitro Toxicology Testing Market By Technology, By Method, By Application, By End-Use and By Region
- To offer data-points and comprehensive data on factors affecting the market (Opportunities, drivers, and industry-specific restraints)
- Analysis and forecasting of micro-markets, as well as the scope of the market.
- To predict the size and share, market forecast, in key regions — North America, Europe, Asia Pacific, and rest of the world
- To record and evaluate competition -mergers and expansions, product launches, and technological advancements within the market

#### **Related Markets:**
