

Apple Macbook Service Center in Bangalore | Green Apple Service Center

If you are able to take your Apple product to an Apple Store or an [Apple Service Center Bangalore](#), they might be able to fix it there for you, depending on whether they have the equipment. However, some problems may be more complex and require being sent on to an Apple Repair Centre, in which case it should take from 6–8 days.

At **Green Apple Service Center**, MacBook repairs are generally completed within **12 to 24** hours. There are a number of other factors that can extend the time which we will go through in our list below:

MacBook Screen Repairs

On average, our MacBook screen repairs take **12 to 24** hours to complete. When we repair a MacBook screen, we also repair the LCD itself. We will disassemble the MacBook screen down to its core components and then rebuild it over the course of **12 to 24** hours. To start a [MacBook screen repair in Bangalore](#), contact us today.

MacBook Diagnostic

If your MacBook requires a diagnostic or if you are unsure which repair is required, this process can take between **12 to 24** hours to complete. We complete our tests on the internal components of the MacBook as well as a thorough inspection of the logic board. After determining that the MacBook is repairable, we will provide you with a quote for the repair cost and time frame. To start a [MacBook repair in Bangalore](#), contact us today.

MacBook water damage

If your MacBook is damaged due to liquid ingress, it should still be repairable. Our diagnostic process is still **12 to 24** hours, but in some cases, we may need more time to diagnose. This is assuming that the liquid has not further damaged the logic board, which serves as the brain of the MacBook. It can take 48 to 72 hours to repair liquid-damaged logic boards. MacBook Battery Replacement

MacBook battery replacements take **12 to 24** hours to complete at Green Apple Service Center. We go through a process of running rundown tests on the old battery and then running the same benchmark tests on the new battery. When performing a battery replacement, we must ensure that the new battery is properly calibrated to your MacBook and that you will have a longer battery life. If our benchmark shows that your old battery is performing as well as a new battery, then we would advise you to delay your battery replacement.
