**MOBILE APP
Development**

iOS

Android

Flutter

React Native

The central graphic features a blue smartphone with a white app interface. Surrounding the phone are four circular icons: the Apple logo for iOS, the Android robot for Android, the Flutter logo for Flutter, and the React Native logo for React Native. Dashed arrows connect these icons in a clockwise cycle around the central phone. A blue pencil icon is positioned between the iOS and Flutter icons, and a code editor icon with '</>' symbols is between the Android and React Native icons. The background consists of abstract, wavy shapes in shades of green and orange.
