Our Range of Services

At Bolt Electric, we offer a comprehensive range of services to meet all your commercial electrical needs. Our experienced electricians are skilled in various areas, ensuring that we can handle any project that comes our way. Here are some of the services we specialize in:

1. Basic Electrical Repairs

From faulty wiring to malfunctioning outlets, our electricians are well-equipped to handle basic electrical repairs efficiently. We understand the inconvenience and safety risks associated with electrical issues, which is why we prioritize prompt and reliable repair services. Whether you are experiencing flickering lights or power surges, our experts will diagnose the problem and provide effective solutions to get your business up and running smoothly again.

2. Lighting Upgrades

Is your commercial space in need of a lighting upgrade? We've got you covered! Our team specializes in lighting upgrades, including LED conversions, to enhance the aesthetics, energy efficiency, and functionality of your space. We can assist you in selecting the right lighting options for your specific needs, ensuring optimal illumination and cost savings. Whether you require lighting installation in a retail store, office, or any other commercial setting, we have the expertise to create a well-lit environment that meets your requirements.

3. Panel Upgrades

An outdated or insufficient electrical panel can pose significant safety hazards and limit your power capacity. Our electricians are skilled in panel upgrades, ensuring that your electrical system can handle the demands of your business. Whether you are expanding your operations or experiencing frequent electrical tripping, we will assess your current panel and recommend suitable upgrades to enhance safety, efficiency, and productivity.

4. Plugs & Switches

Faulty or outdated plugs and switches can cause inconvenience and even electrical hazards. Our electricians can replace and upgrade plugs, switches, and outlets to ensure reliable power distribution throughout your commercial space. We work diligently to ensure proper installation, adhering to safety standards and regulations. Whether you need to replace a single outlet or upgrade the entire electrical system, our team will provide professional and efficient service.

5. Commercial Bucket Truck Work

At Bolt Electric, we understand that some commercial electrical projects require specialized equipment and expertise. That's why we offer commercial bucket truck work to tackle high-reaching

electrical tasks, such as outdoor lighting installation and maintenance, signage repairs, and more. Our bucket trucks enable us to safely access elevated areas and complete electrical work efficiently.
