M É D I C O - E S T H É T I Q U E

At our age, we find the excess fat in the body. Just how much time you do work out, you do not get your excess fat reduced. Then it is the ideal time to get our Clinique Chloé therapy. When you advise us, you might get some hesitation, yet after some when you feel free, after that it is very easy for us to get in touch with you. All we aim is to see you with a happy face. The advance therapy we have has no side effect and also really efficient. Actually, one of the most common areas that affect are tummy, love handles, outer thighs, hips, outer thighs, under the chin, and also around the jawline. For all these excess fat, we have the very best technology to treat in an easy manner. All the areas in the body will certainly have some excess fat in some way or the other. It is simple to maintain with our therapy, it comes to be permanent.

Yet, prior to consulting to us, it is very important to find out about its procedure as well as the strategies with us. We are very transparent in giving you the very best ideas on reducing the fat. We give you different kinds of techniques for the skin to glow as well as reduce the fat. We have with injection, without injections and also the last one is utilizing lasers. When you are choosing injection with us, it has neuromodulators that contain natural protein and also injected right into the body. Because of this, one can be relaxed. The relaxation will lead you to the decrease of the appearance of lines around the eyes. Also to the great extent, it reduces the frown lines and forehead lines.

We have actually experienced individual that can even treat too much sweating using neuromodulators. In addition to the neuromodulators, we also have technologies like dermal fillers, belkyra, skin boosters, mesotherapy, Sculptra, radiesse, platelet rich plasma. Every single method has its own way to fix and give results. Do not worry about our technology, as there is no negative effect with us. Afterwards, we have without injection technology (chemical peel, microneedling). The chemical peel is an extremely easy method that can eliminate dead cells on the skin. Obviously, it can decrease pores, as well as even out skin tone. In addition to this, we also treat with dark spots, hyperpigmentation, and melasma.

The next method we treat to even out skin is microneedling. This method is also about without injection. This method works utilizing micro-perforations. This can stimulate the production of collagen. The best outcome of this therapy they decrease the skin tone or complexion and also reduce the wrinkles, acne scars, and also stretch marks on the body. Last, one we treat is the lasers. We have plenty choice for the patient to treat. Starting from the hot sculpting to the renovalase, everything deals with finest outcomes. Even also we treat for hair loss, redness, acne, stretch marks, eyelid lift, melasma. All these come under the categories comes under the fotona. We have laser therapies that include 4D, incontilase, intimalase, fractional laser and so on. To know more details, it is best to go to and get our consultation. Then you can get a clear idea and conclude on which part to therapy.
