

Prepare for battle when Igdrasil releases Lotus warrior

Leading iGaming publisher Yggdrasil teamed up with Bulletproof Games to deliver action-packed Asian adventures on their latest release, Lotus Warrior.

This slot on the 5 Reel 25 Pay line boasts three unique free-spin features - Sakura, Sinobi and Sumari - and expands wild symbols that can help deliver lucrative prize money.

The Lotus Warrior's free-spin function is based on which of the three, four or five bonus symbols lands in the game.

Sakura spin is a progressive free spin feature that gives each Sakura spin more awards than before. Light the word EXTRA on the reel and you will be awarded five more spins.

Sinovie spin sees tiles on the game's symbol trail spin during one spin. New symbols that appear cause locking and breathing, and subsequent icons that appear increase the winning multiplier. When three bonus symbols land, the last spin can resume functionality.

Samurai spin sees the player granted eight free spins, during which any wild landings are collected in pots. Each winning spin is added to the multiplier pot, and at the end of the feature, the collected wilds are added back to the reel to perform one final super spin. The win is then multiplied by the current multiplier.

Players can buy Sakura Spins for 80 times the stake, Sinobi Spins for 130 times, and Smari Spins for 250 times. Alternatively, you can receive a lucky dip that randomly selects features for 100x the stake. [온라인카지노](#)

The title is the latest film by Bulletproof Games to join the YG Masters portfolio, following "Blackbeard Battle of the Seeds" and "Dragon Lower GigaRise."

Lotus Warrior is based on GATI and Yggdrasil's state-of-the-art technology enables partners to consistently produce and quickly distribute state-of-the-art content using standardized development tools to meet preconfigured regulations.

Mark McGinley, Igdrasil's chief gaming officer, said, "If you're a fan of deep, immersive games with rich bonus features, Lotus Warrior is the game that will tick all your boxes. Once again, it is a great pleasure to work with a talented team from BTS Games and this new title shows the real benefits of working together for a new release."

Michael Bullock, product director at Bulletproof Games, wrote, "Lotus Warrior is a game specifically designed for thrill-seekers who enjoy immersive bonus features. I hope the players will enjoy this slot as much as we have made it."
