

The Beauty of Joseon Glow Serum is a hydrating facial soothing moisturizer formulated with propolis and niacinamide, aimed at addressing irritated and uneven skin tones.

Here are: the details about this product

1. **Propolis:** Propolis is a natural resinous substance produced by bees. It is known for its anti-inflammatory and antimicrobial properties, making it effective for soothing irritated skin and reducing redness and inflammation.

2. **Niacinamide:** Niacinamide, also known as vitamin B3, is a powerhouse ingredient in skincare. It helps to improve the appearance of enlarged pores, uneven skin tone, and fine lines. Additionally, niacinamide has anti-inflammatory properties that can help calm irritated skin.

3. ****Hydrating Formula:**** This serum is designed to provide lightweight hydration to the skin without feeling heavy or greasy. Hydration is essential for maintaining skin health and can help improve the overall appearance and texture of the skin.

4. ****Soothing Moisturizer:**** The combination of propolis and niacinamide works synergistically to soothe and calm irritated skin, reducing redness and discomfort. This makes the serum ideal for those with sensitive or reactive skin types.

5. ****Even Skin Tone:**** Niacinamide helps to regulate the production of melanin, the pigment responsible for skin coloration. By doing so, it can help to fade dark spots and hyperpigmentation, leading to a more even and radiant complexion over time.

6. ****Korean Skincare:**** The product is part of the Korean skincare tradition, known for its innovative formulations and emphasis on gentle yet effective ingredients.

7. ****Compact Size:**** The serum comes in a 30ml (1 fl. oz) bottle, making it convenient for travel or on-the-go skincare routines.

Overall, the Beauty of Joseon Glow Serum combines the benefits of propolis and niacinamide to provide hydration, soothing relief, and an even skin tone, making it a versatile addition to any skincare routine, especially for those with irritated or uneven skin. click [here](#)
