

Brazilian Lucky Wood Plant – A Symbol of Positivity

How to Care for Brazilian Wood Plant (*Jacaranda*)

LIGHT

Place in bright, indirect sunlight. Avoid harsh afternoon sun.

WATERING

Keep soil consistently moist but not soggy. Water when the top inch feels dry.

TEMPERATURE

Thrives in 18–28°C. Protect from frost and sudden temperature drops.

HUMIDITY

Prefers moderate to high humidity. Mist occasionally or use a humidifier.

SOIL

Use well-draining potting mix with organic matter.

FERTILIZER

Feed monthly during spring and summer with a balanced liquid fertilizer.
