

# Sahara Las Vegas unveils transformation plan

Yesterday, Sahara Las Vegas announced plans to renovate its \$150 million resort, including a major upgrade to the property's exterior and new restaurants.

In 2020, Sahara Las Vegas will transform the look of unveiling its new strip-facing facade, including a fully renovated Porte Coacher on Las Vegas Boulevard and a new digital signage package. The unique water feature will serve as the centerpiece of the resort's main entrance, which has lush leaves and a warm, earthy palette of colors. The water feature includes a dynamic dance fountain, a negative-edge waterfall, and integrated LED technology under a 24-foot color-changing chandelier. Enhancements to the interior entrance include beautiful stone tiles with brass inserts along with glass mosaic flowers, detailed 20-foot chandeliers with hand-blowing glass, and a 10-foot brass entry door that allows beautiful natural light rays to shine across the casino's main floor.

The resort change also includes the addition of three new dining concepts to the resort's award-winning culinary program. Opening this fall, the concept includes the previously announced popular Philadelphia Crab House and sports bar, the concept of a Chinese restaurant led by the famous chef Guo Ming "Sam" Shin, and the upcoming Italian concept. Sahara Las Vegas recently opened Friendi, a new to-go restaurant. Located in the hotel lobby of the recently renovated resort, Friendi serves a fresh menu with homemade items including low-temperature compression juice, focaccia pizza, pastries, salads, and sandwiches. The lobby is also now home to The Tangier, and features a global selection of more than 150 brown spirits from six continents, including Bourbon, Scotch, and Cognac. Looking back on customers, The Tangier's unique menu features a variety of classic and newly curated specialty cocktails.

In addition to the new hotel lobby amenities, Sahara Las Vegas has introduced its first games in a brand-new poker room in recent weeks. Boasting seven tables, a 16-foot-by-9 LED video wall, and five additional screens throughout the room, along with 24-hour food options offered by the Northside Cafe, the room offers an extensive game chart including No Limit Texas Holdem, Limit Holdem, Port Limit Omaha, 7-card studs, and various mix games and daily tournaments. The poker room complements the additional improvements and expansion of last year's main casino floor, and currently has more than 60,000 square feet of newly updated

casino space, including 600 of the latest slots and video poker machines and 50 classic table games.

Construction is also continuing on previously announced variations of the main resort pool. From VIP cabanas to private pools overlooking the main pool, nothing will be left untouched, as the entire pool and its amenities undergo sweeping inspections to create a new and engaging pool experience.

"We are pleased with the progress we have made so far and are excited to announce new additions to our innovation schedule," said Paul Hobson, senior vice president and general manager of Sahara Las Vegas. "A great deal of care has been taken to incorporate customer feedback into our plans, creating a truly unique and boutique experience along the Las Vegas Strip. With each new amenity coming online, we continue to find customers to make sure we deliver on our promise to create the best customer experience in Las Vegas." [온라인카지노 사이트](#)

Sahara Las Vegas has 1,615 rooms, more than 85,000 square feet of flexible meeting space and entertainment venues, a lounge, two rooftop pools, a luxurious Amina spa and acclaimed restaurants including award-winning Jose Andres' Bazaar Meats.
