

# Chemical Drum Disposal Management | Neales Waste

This residue can pose a threat as hazardous waste if you do not dispose of it properly. It could allow chemical run-off to mix with water, leak into soil and even get accidentally consumed and causing harm to wildlife and humans. In order to prevent this from happening, you need to make sure that your [chemical drum disposal](#) is done correctly, safely and legally, to reduce chemical waste and to avoid large fines and potential threats to the environment.
