

# The solution to improve the world is education

Investing in education is likely the finest type of investment. A human being is created through education, much like a diamond is created through mining. Furthermore, education enables an individual to stand out from the crowd and lead it. Consider the great leaders, scientists, and entrepreneurs who have helped shape the world we live in today. They were able to accomplish so because they battled for quality education. Moreover, they used their education to their advantage to become what the world recognizes them for!

Today, education has enabled the general populace to realize their true potential and become conscious of their rights. An excellent education has also enabled individuals to alter their status from job searchers to job producers, which is currently in demand. As a result, [education is a powerful tool for making our world the better place it deserves](#). Therefore, for early childhood development, education always plays a pivotal role.

## **The goal of free education is to make it an all-inclusive commodity.**

There was a time when education was considered a luxury for the upper crust. Only those from wealthy families and the higher echelons of society have access to high-quality education. On the other hand, people from lower socioeconomic strata felt the pain of economic inequality. As a result, they were severely deprived of excellent education, adding to society's growing disparities.

Fortunately, the world has progressed far enough that most students today benefit from easily accessible education. As a result, economic gaps are shrinking as well. Education has also been a major driving force in bringing about social changes. It has brought down the barriers of gender inequality. Moreover, education has worked its way to tear down taboos and beliefs, as well as to instill a scientific temperament. As a result, we now see women taking on roles that were previously reserved for men and vice versa.

Despite these achievements, evidence suggests that a population still needs to benefit from the gift of education. The leading cause for this is financial constraints, which prevent them from investing in education. So, to help such communities, free education comes to the

rescue. Today, numerous platforms have altered their education systems from pricey – conventional modes to costless digital learning modes.

### **Kitmek: Aiding the learning of the poor.**

Many players have come and gone in the digital learning era, but one has just entered the market: Kitmek. It seems that this will have a long-lasting effect. [Kitmek is a one-of-a-kind online school that began as a gaming platform](#). It hosts over 800 online education modules, making education a fun learning experience. Furthermore, it has not stopped there but has taken steps to make education available to all children, even those from low-income families.

Kitmek offers an education program that attempts to support education for underprivileged children. This program, known as “Sponsor a Child,” is famous for providing free education for every \$1 donated to the platform. [Let us examine the aspects of the “Sponsor a Child” initiative.](#)

### **Sponsor a Child: Realizing the dream of every poor parent.**

An underprivileged parent, dreams about sending their kids to school. Moreover, they realize the importance of quality education and the difference it can create. They also aspire to give their kids a better life, different from what they have experienced. However, the present education system is highly challenging, as it entails exorbitant tuition fees and thus remains inaccessible. [Nevertheless, Kitmek, which has brought about the concept of gamification in](#)

[learning](#), has also found a solution to fund the education of poor kids. Any poor parent can now educate their kids under as “Sponsor a Child” program. To get access to [Kitmek's digital learning program](#), they need to follow these steps:

- Parents of underprivileged children must download the game and finish the enrollment process from [Kitmek.com](#).
- They must submit all pertinent information about the child's grade and age before proceeding with the [“free education in-game”](#) option.
- When they complete signing up and providing the appropriate information, their child is registered as a Kitmek beneficiary of the [“Sponsor a Child”](#) program.
- On the sponsor's end, Kitmek pledges that for every \$1 donated by the sponsor, free access to online education on [kitmek.com](#) will be provided.
- As a Kitmek student, the child will have access to all of Kitmek's courses in an online school.
- Their membership is contingent on sponsorship as well as monthly academic performance. The creation of a performance report card is also included for analysis and future enrollment.

This way, [Kitmek's creative project has made education more affordable](#). Furthermore, the child receives a fair amount of education and becomes capable of preparing for further education. They can now compete on par with any other school-aged child worldwide!

## **Conclusion**

Education is critical to eradicating all of the world's ills and should be encouraged in any way feasible. [Kitmek, the world's first digital school](#), will alter lives with its unique education program for the underprivileged, as well as others. We may insist that [Kitmek is transforming the world for the better](#).
