

Testimonial

"Dr. Sandy has been my homeopath, psychiatrist and spiritual advisor through a very difficult period of time for me. I believe that her homeopathy has spurred long term dramatic changes in my life. She encouraged me to resume my meditation practice which led me almost directly to meeting Amma and an ensuing enlightenment experience. She has helped me focus on being fully aware of and compassionate to all my emotions and thoughts. She is great guide for those seeking to be present, calm and centered." - Dave M.
