

# When smartphone falls in water

...www.fixtops.com

**WHEN  
SMARTPHONE  
FALLS IN  
WATER.**

   [fixtops\\_](#)

**Avoid drying the phone using the microwave:**

**This is very dangerous and can start a fire. Don't turn it on-in fact don't press on any buttons or keys.**

**FIXTOPS**

**Don't put the phone in the freezer:**

**Because once you remove it, the ice melts and you are back to square one.**

**Do not take the phone apart:  
This could void your warranty.**

**Do not shake, tap,  
or bang the phone:  
When things don't  
work, we tend to  
bang or shake it.  
But doing this can  
cause further  
damages to the  
phone.**
