PRECALCULUS MATHEMATICS FOR CALCULUS. Sep 28, · Precalculus: mathematics for
calculus by Stewart, James, ; Redlin, L; Watson, Saleem. In this course, we will study many
types of functions. Functions are mathematical objects that for each input provide exactly one
output. Linear functions are used to describe patterns where the rate of change is constant,
and will be the first type of function that we study. L: Be able to solve a linear equation.
