France and Denmark are two European countries with distinct histories and cultures. France is located in Western Europe, bordering countries like Spain, Italy, Switzerland, Germany and more. It has a diverse landscape that includes coastal areas and islands, mountain regions like the Alps and Pyrenees, farmland and forests. France has a population of nearly 67 million people and its capital and largest city is Paris, known globally as a hub for art, fashion, food and culture. Some of France's most iconic landmarks include the Eiffel Tower, Notre Dame Cathedral and the French Riviera coastline. French culture has significantly influenced many other parts of the world through its language, fine dining, architecture and more. When it comes to cuisine, France is renowned for dishes like baguettes, croissants, cheeses, wines and pastries.

Denmark, meanwhile, is located in Northern Europe and forms part of the Scandinavian region. It has a total land area about half the size of France and a population of around 6 million people. Denmark's capital and largest city is Copenhagen, home to landmarks like Tivoli Gardens amusement park and the Little Mermaid statue. Denmark has a largely flat landscape with many islands along its coastline. The Danish landscape includes forests, farmland and beaches, with much of the country's natural beauty yet to be developed. Denmark enjoys a highly developed economy and consistently ranks among the happiest countries in the world annually. Some iconic Danish cultural aspects include its cuisine centered around pork, fish and pastries. The Danish hygge culture and concept of coziness is also globally admired.

Both France and Denmark enjoy temperate climates, though Denmark can experience colder winters than France overall. When comparing economies, France has the world's seventh largest while Denmark is often cited as one of the most business-friendly.
