

GTC Cloth Drying Stand | Indoor and Outdoor

GTC [cloth drying stands](#) conveniently hangs and dries more clothes/garments in a limited indoor space. No need to use the clothesline or rods to dry clothes anymore. It is designed with high-grade metal material and PVC that will never break, bend and rust and last for a long period. The stand has an anti-skid design. Foldable wings of the stand help save space. At the same time, you can easily adjust the direction from lower to the upper position that can fit longer laundry. It is designed with premium material and will not damage your clothes. This laundry hanger rack is very useful for drying delicates. Plastic capping keeps the floor from getting scratched.
