

How to Get the Safest Airport Limousine Service For Your Family

When traveling with your family, it can be hard to make sure each of your transportation options is a safe one. From choosing the best airline to airport rides to hotel transport, there are many variables involved in getting to your destination while keeping the family safe.

If there's one constant in your transportation decisions, it's that safety should never be sacrificed. When your family is in tow, your ride matters. So how can you make sure your trip to the airport before your flight is the safest possible option? Make sure it matches the LUXY™ standard of excellence. Your peace of mind is worth it.

Limo Service Airport

Instead of waiting until the day of the trip and booking a questionable rideshare, make the decision to book your airport ride in advance. And with LUXY™, forget about the complication of searching for an "airport limo service near me". Just [download the app](#), plug in your pickup and drop-off location, and we'll do the rest. We'll match you with the most affordable rate for your ride, and you'll get paired with one of our many professional chauffeur partners in your area.

Licensed Professional Chauffeurs

Don't risk your safety with a ride from any old driver on Uber, Lyft, or in a taxi. When you [book with LUXY™](#), a licensed professional will pick you up, and you can be sure that they are vetted and verified to keep you safe on the road.

To become part of LUXY™ network of partnered chauffeurs, drivers must go through a detailed screening process beforehand. Thorough background checks and mandatory pre-hire drug screening are all required, to ensure that you are [protected on the road](#) with individuals that put your safety first.

Vehicle Requirements

It is imperative that the vehicle you are riding in is safe and comfortable as well. While other rideshare apps have drivers show up in old or run-down vehicles that lack basic comforts or safety measures, partners with LUXY™ can only use pre-qualified vehicles that meet the LUXY™ standard. This includes clearly accessible seats, which means seatbelts are always readily accessible for *all* seats in the car, and makes sure adequate heating or air conditioning

is available for your ride. Your trip should be spent in a vehicle that eases and comforts you, and at LUXY™ we settle for nothing less as your preferred airport limousine service.

Child Ride Standards

LUXY™ supports the strongest safety standard by recommending that all children be secured in a child restraint seat for transportation. Select a seat while booking for \$10 to have your car arrive with the proper seat for your child or provide your own at no cost.

If you've traveled with children, you know the pain of lugging around car seats wherever you may be headed. Lighten your luggage a bit when you choose LUXY™, and request the appropriate child seats at the time of booking. These will be in the car when your driver arrives- so ride contently knowing that your little ones will be safe and secured with [this amenity](#).

Select from the following options when you choose "Child Seat" under Extras while booking:

- Rear-Facing (Ages 0-3)
- Forward-Facing (Ages 1-7)
- Booster Seat (Ages 4-12)

Trip Protection

Don't just keep your party safe on your trip, keep the entire trip secure if plans happen to change. Trip Protection is automatically checked on [all LUXY™ trips](#), and keeping it selected adds an additional \$8 to your ride along with the flexibility to cancel up to 3 hours prior to your scheduled pick-up time. Receive a full refund for your trip or reschedule your trip at no additional cost if your flight is delayed, diverted, or canceled.

Unsure if your flight will be delayed or end up landing on time? Your driver will additionally be tracking the status of your flight if you provide those details during booking, and they will be aware of the latest updates provided by your airline. With Trip Protection selected on your ride, you will not be charged for wait time due to a delayed plane or for the cost of a new ride.

For your next trip, it's time to prioritize safety at every stop to your destination. Don't waste time searching for a 'safe and adequate airport limo service near me' and simply download LUXY™ today on [iOS](#) or [Android](#), the app that will find you luxury airport transportation at an affordable price, while putting your safety first and foremost.
