# Cova Tracker - An Information Hub On Covid-19 Developed By Seasia Infotech

COVA Tracker is a step to aware our citizens to take all preventive measures and care considering WHO and the Ministry of health and family welfare's advisories. It gives you the real-time count of tested, confirmed cases. This app is developed by Seasia Infotech, A CMMI Level 5 [software development company](). By using this App, citizens are getting true stats from various authorized agencies and keep you updated with the latest information about the novel coronavirus.
