NFL slot machine landed on the casino floor

The first NFL-themed slot machine landed on the casino floor ahead of the 2023 professional football season. The NFL Super Bowl jackpot by Aristocrat Gaming was released on Thursday and is available to play at casinos in Southern California, Oklahoma and Connecticut. The slot will continue to be distributed in other locations, including Las Vegas, Arizona, Florida, Massachusetts and Oregon, until the end of September.

Gamblers can choose their favorite teams from 32 clubs that will serve as the theme of the game while they play. The slot runs in Aristocrat's new King Max cabinet, with a \$1 million incremental jackpot in the game. [온라인경마](#)

The game includes six licensed fans' favorite stadium countries to play during the key moments of the slot experience. NFL Super Bowl Jackpot is the first of a series of planned league-themed games to be released in the coming months.

"After nearly two years of collaboration with the NFL and the NFL Players Association, we finally see these game-changing machines working," Hector Fernandez, CEO of Aristocrat Gaming, said in a statement. "We are extremely grateful to our teams around the world for their collective excellence in making today possible."
