

Medical Device Complaint Management Market Size, Share, Industry Growth, Analysis Report 2028

The global medical device complaint management market is anticipated to grow at a CAGR of nearly 8.2% during the forecast period (2022-2028). The medical device sectors have grown significantly during the forecast period. Due to the increasing medical device facilities across the globe along with the rising adoption of the digital system as compared to the paper-based work for tracking medical complaints. This factor attracts market players to contribute to the growth of the market by the adoption of various strategies including mergers & acquisitions, geographical expansion, partnerships and collaborations, and new product launches, to stay competitive in the market. For instance, In November 2021, IQVIA announced the launch of the module of its Grants and funding management within its Orchestrated Customer Engagement (OCE) solutions portfolio. This initiation is expected to provide the life sciences industry with a solution to efficiently manage and oversee their global strategic giving programs.
