

What characteristics make a great third-party logistics provider?

When your company is starting to grow and you need a helping hand with warehouse management, it is always good to find the best third-party logistics provider who can provide you with the necessary resources.

Clear Communication: Make sure the 3PL providers communicate what needs to be done and give you updates on the progress of your shipment. A good customer service team should be present that can respond quickly and effectively, especially when there are issues with shipments or damaged goods.

📍 174 Lawrence Dr Suite A, Livermore, CA 94551

Advanced Technology: Advanced technology is a key requirement for any [3rd party logistics company](#). It can be used to ensure that the company can adhere to the latest trends in the industry.

Expertise in the Industry: A good [warehousing logistics](#) provider will have years of experience in this field and know how to deal with any problems that may arise.

Real-Time Visibility: You should be able to access your data in real time. Access to a 3PL web portal will allow you to view and manage your data anytime.

Inventory Tracking: A great 3PL [warehouse management](#) company will have an advanced system for tracking inventory levels to prevent stockouts and overstocks from happening.

Fulfillment Services: Fulfillment services should be provided by the 3PL providers as they are a must for your businesses to pick up products from the warehouse, pack them into boxes, and then deliver them on time to the customer's address.

WestHub Logistics is a [3PL West Coast](#) software company specializing in receiving, warehousing and fulfillment. This [3rd party logistics company](#) offers same-day delivery, automated freight management, and other advanced features to help their clients manage their logistics needs.
