

"I'm just thinking about not giving up and running to death

Suwon came from behind to beat home team Suwon FC 3-2 in the 36th round of Hana One Q K League 1 2023 at Suwon Stadium on the 12th.

Suwon was on the defensive in the 14th minute of the first half when Kazuki was sent off directly and gave up the first goal, but Kim Joo-chan's score made a thrilling 3-2 come-from-behind victory.

Kim Joo-chan, who scored the winning goal and was selected as a training player, was humble, saying, "I thought it would be a tough game, but I was able to win as a result of the players playing with one mind without backing down.

The reason why he ran to the away cheering section right after the score was that he showed off his affection for the fans, saying, "I felt good after scoring a come-from-behind goal, so I ran there without realizing it."

Kim Joo-chan then said, "I'm grateful that you trust me and let me run even though I'm a rookie," adding, "When I go to the stadium, I always run like crazy and make the same determination every time, but I think I can gain confidence and score a goal thanks to that thought."

Kim Joo-chan, who is set to play the 37th round super match against FC Seoul following Suwon Derby, said, "I have the same determination in every game. "I just watch one game and play hard," he said, expressing his willingness to do his best to remain in the K League 1.
