

# MAGNETIC HILL , LEH LADAKH ~ MAGNETIC HILL ULTIMATE GUIDE ~ 15 TIP FOR YOUR VISIT MAGNETIC HILL

, also known as Gravity Hill, is a place where vehicles appear to roll uphill in defiance of gravity. It is an optical illusion created by the layout of the surrounding area.

The most famous Magnetic Hill is located in Ladakh, India, on the Leh-Kargil Highway. When parked at a certain spot on the hill, vehicles will begin to roll forward, even with the engine off.

The illusion is caused by a combination of factors, including the slope of the hill, the surrounding mountains, and the distant horizon.

To experience the Magnetic Hill illusion, simply park your vehicle at the designated spot and put it in neutral. The car will slowly start to roll forward, as if it is being pulled up the hill. You can even step out of the car and watch it roll away!

There are several other Magnetic Hills around the world, including in the United States, Canada, and Australia. However, the Magnetic Hill in Ladakh is the most famous and popular.
