SCARBOROUGH'S READING ROPE THE MANY STRANDS WOVEN INTO SKILLED READING AUTOMATIC () SKILLED READING Fluent execution and coordination of word recognition and text comprehension. Dr. Hollis Scarborough () compares skilled reading to the many strands of a rope. Each strand represents a separate skill that when combined with the others, creates a strong, proficient reader. When any one strand (skill) is not acquired with fluency, it weakens the strength of the rope. "Skilled reading requires that the processes involved in word recognition become so well practiced that they can proceed extremely quickly and almost effortlessly, freeing up the reader's cognitive resources for comprehension processes."
