

# Money Management tips

Finding it difficult to manage your finance? Get finance tips to manage your money effectively.

## MONEY MANAGEMENT

### F I N A N C E T I P S

#### 1. TAKE A NOTE

Record all your needs with their prices and make a group. After that, make sure you prioritize your primary needs first.

#### 2. PAY YOUR LOAN

Pay off your debts first. We recommended you to avoid making a lot of debt. Debt also makes your life uneasy and financially unstable.

#### 3. MONEY SAVINGS

Always leave your money to save as much as 10–20% of your income. And don't forget to give charity, because we are social creatures.
