

CBD White Label Black Female Owned: WH Farms

Our business comes with a purpose!

We created WH Farms i.e. [**CBD White Label Black Female Owned**](#) or [**CBD Farm in NC**](#) to build upon the legacy of agricultural development started by our ancestors.

We, [**Black Women Owned CBD Farm**](#), work directly with an African American co-op of legacy farmers to cultivate high-quality healing hemp products.

Our mission is to empower POC entrepreneurs with the tools they need to start building wealth in the CBD industry.

We love the WH Farms Co Family which is [**Black Women Owned CBD Brand**](#), and we want you all to win!
