Mercury in 8th house in astrology is not a healthy place for Mercury to be in as it forces it to be solitary, be a quiet personality, and provide lots of skin problems as well as pain in the hands and back.

Meaning and astrological traits of those born with Mercury in the eighth house

The eighth house is renowned for its insight into the criminal underworld, government taxes, and covert government operations. It is a home for unexpected things like sudden surgery, accidents, and fatalities. Positive things can also occur abruptly, such as unexpectedly winning the lottery, purchasing a home, or landing a job.

The eighth-house native of Mercury uses reasoning skills and intelligence to conduct research. As they delve deeply to learn, observe, or analyze something because analyzing data comes

with intellect, the native could be a paleontologist, archaeologist, or in any other subject that is pertinent.

In terms of the throat, family history, and family lineage, the eighth house is also crucial. The native learns about his family and teaches it to be resourceful by studying their family history in great detail. Speaking and improving communication skills are important aspects of [Mercury in 8th house](#). In-laws and family members can be highly communicative with the native, but if the planets are out of alignment, family relationships are likely to suffer.

The native's capacity to communicate delves deeply into life's philosophical issues. Natives may search for intellectual items as a result of their eighth-house natal curiosity for knowledge and learning new things. Since home problems are less cerebral than professional ones, it might be problematic when it is diverted to address them.
