

# NSN 5960-00-114-3827 - High-Quality Electron Tube for Advanced Systems

The NSN [5960-00-114-3827](#) is a reliable and durable electron tube designed for advanced applications in aerospace, defense, and industrial sectors. Known for its efficiency in high-frequency operations, this component ensures dependable performance in critical environments. Find it available at ChipsOnSale for your technical needs.
