Minister of Economy and Finance of Macau Lionel Long Vai Tac recently addressed the Legislative Council during a debate on the Macau government's policy speech in 2017, and said the city would consider public opinion about allowing casino operations in Coloan. Long Vai Tac said that six major casino operators in Macau have been allowed to apply for casino licenses in Coloan, and that the city department of Macau's Bureau of Land Works and Transportation will make a decision on whether the proposed casino matches or opposes the government's plan to develop the Coloan area.

Only after the Bureau of Land, Infrastructure and Transport has made a decision on the casino proposal will it be sent to the government for a final decision. Leung did not confirm which of the six casino operators were interested in developing casinos in Colon, but said they were all eligible as long as their proposals complied with all existing regulations. 13 The hotel has so far not given any indication of the casino opening, but the company can still ask the Macau government for permission to open the casino.

Macau's Game Inspection Coordination Bureau confirmed, "So far, we have yet to receive a request from any of the game operators to open a new casino at the Hotel The 13 location."

13 The hotel's developer said the hotel's opening would be postponed until next time, but did not say why.
