

The History and Tradition of Firecrackers: Exploring the Origins of these Explosive Delights

Firecrackers have been a part of human culture for centuries, and their history is as fascinating as the crackling sound they make. The tradition of using firecrackers can be traced back to ancient China, where they were invented during the Tang Dynasty (618-907 AD). Initially, firecrackers were used to drive away evil spirits, and they continue to be an important part of traditional Chinese celebrations, such as the Lunar New Year.
