

How to Use Omegle Video Chats

Getting to know different people on the web, coming from every corner of the planet, is something very simple today. Just think of the many **social and messaging platforms** , which allow you to interact with accounts of any place and age.

A very popular tool for making friends is **online chat and video chat** . You've probably already heard of this type of service, very often free, which allows you to exchange messages with people from all over the world. What you may not know is that there are platforms that **also allow you to interact via video chat** , so you can keep in touch with friends and relatives but also “physically” see the person you just met in chat.

Among the most used and appreciated chat and video chat services there is certainly **Omegle** , a website that has the peculiarity of allowing all users **aged 18 and over** to access the service without having to register. Well yes, Omegle allows you to make all the video chats you want while maintaining your anonymity.

Want to know how it works? Then follow me, because I will explain everything to you in the next paragraph.

Omegle: All the details you need to know before using

To understand in detail how Omegle works, we need to dwell on some aspects. First of all, as mentioned above, **registration is free** and automatically initiates **acceptance of the terms of**

service (which can be consulted on the official website of the chat and video chat platform). Omegle is restricted to minors under the age of 18, although those over the age of 13 may access it with the permission of a parent (or guardian).

In addition, as usual in chat and video chat tools, you will have to **maintain a correct and respectful behavior** while having conversations with other people.

Finally, in order to use the videochat it is necessary to allow Omegle to be able to access the microphone and video camera. The operation is very simple, since all you have to do is go to the service website, **click on the padlock icon** that you will find at the top and then on Site settings. At this point you will have drop-down menus in front of you regarding Camera and Microphone: switch to Allow to be able to immediately start a video chat on Omegle.

Finished? No, there is another thing you need to know, namely **how to set the Italian language**. Go to the main page of the site and set Italian in the Select Language drop-down menu.
