

# Oxygen Absorber Packets for Long Term Food Storage

[Oxygen Absorbers](#),” which offers the perfect solution for all packaging issues against the growth of oxygen, the proliferation of bacteria and spoilage, mold, and mildew. Oxygen Absorbers are added to any enclosed packaging aid to remove or decrease the level of oxygen in the package. Sorbead India offers a food-grade oxygen absorber used in vacuum-sealed and manual-sealed packaging. During the flexible or vacuum packaging process, packets or containers are perfectly mouth-filled and properly sealed for the solution of the oxygen-free environment from the packaging.
