

# Simply convert your existing website to android app with Web2appz

Simply convert your existing **website to android app** with **Web2appz**

The image displays the Web2appz website interface and its mobile application. The website features a navigation bar with links: HOME, FEATURES, SIMULATOR, PRICING, CREATE APP, SHOWCASE, BULK APP, and CONTACT US. A prominent 'CONVERT NOW' button is in the top right. The main heading is 'Web to Apk Converter'. Below it, a subheading reads 'Convert your web to apk by just pasting your Website URL! Get your Android App & iOS App.' A form with the placeholder 'Enter your Website URL' and a 'CONVERT' button is present. A 'How it works?' link is also visible. The Web2appz logo is at the bottom of the website section. To the right, there are three mobile app mockups. The first is a smartphone showing the 'Ditt URL' app interface with a 'Short URL and Share' section and a 'Paste a long url' input field. The second is a tablet showing the same 'Ditt URL' app interface. The third is a smartphone showing the 'Web to Apk Converter' app interface with a 'Paste your Website URL' input field and a 'Convert' button.
