

Top Spine Specialist in Bangalore

The most common **spine surgery** is often associated with conditions such as herniated discs, spinal stenosis, or degenerative disc disease. One prevalent procedure is discectomy, wherein a portion of the damaged disc is removed to alleviate pressure on surrounding nerves. Additionally, spinal fusion is frequently performed, involving the joining of two or more vertebrae to stabilize the spine and reduce pain. When seeking a **[spine specialist in Indiranagar](#)**, **Axon Specialty Hospital** emerges as a leading choice.
