Accounting • Taxation • Consulting

## 4 Ways How To Become a Digital CPA

- Use of Cloud**  
Use the power of cloud technology. It provides various features like team collaboration, remote access, reduced IT maintenance, device independence and a lot more which can increase your productivity at a gradual rate.
- Presence on Social Media Platforms**  
Social Media platforms like LinkedIn, Facebook, and Twitter can help you to connect with your clients or like-minded people, and also will serve you as a way to promote and brand yourself in the industry.
- Available 24x7**  
Use of mobile has almost removed the communication gaps. Being available (using smartphones) for client and team members even when you are not in the office enhances reachability. It keeps the operation going uninterrupted.
- Data Security**  
Data security is an essential concern for accountants. As digital technologies protect the data better, you should choose that as well. The choice of accounting technologies (software, cloud service, etc.) should rely on the level of protection they can offer.

If you want to become a Digital Certified Public Accountant and what are the benefits of it? A CPA is an accounting professional who manages all your business and personal financial activities.
