

What types of shutters in Sunshine Coast are there?

Ah, the Sunshine Coast – where the sun plays hide and seek with the clouds, and coastal living takes center stage. If you're looking to add a touch of elegance and functionality to your Sunshine Coast home, shutters are the unsung heroes that deserve your attention. Let's dive into the types of shutters that seamlessly blend with the laid-back charm of this coastal paradise.

Plantation Shutters:

Picture-perfect and versatile, plantation shutters are a staple in Sunshine Coast homes. Their wide louvers allow for excellent light control, offering the perfect balance between sunshine and shade.

Aluminum Shutters:

The Sunshine Coast's salty air meets its match with aluminum shutters. Durable and corrosion-resistant, these shutters are perfect for coastal living, adding a modern touch to your windows or outdoor spaces.

Timber Shutters:

For a touch of warmth and natural beauty, timber shutters are the go-to choice. They bring a touch of the outdoors inside, creating a cozy and inviting atmosphere that complements the Sunshine Coast's natural aesthetics.

Roller Shutters:

When it comes to security and versatility, roller shutters take the lead. Perfect for both windows and doors, these shutters provide added privacy, protection, and insulation – a triple threat for your Sunshine Coast abode.

Café-Style Shutters:

If you adore sipping your morning coffee while soaking in the coastal views, café-style shutters are your ideal companions. Covering only the lower portion of your windows, they offer privacy without sacrificing the panorama.

Bi-Fold Shutters:

Bring the outdoors in with bi-fold shutters. These versatile additions effortlessly fold and stack, creating an open and airy feel, making them a perfect fit for the breezy Sunshine Coast lifestyle.

Fixed Louver Shutters:

For a classic and timeless look, fixed louver shutters reign supreme. Elegant and functional, they are a charming addition to windows, providing light control and privacy in equal measure.
