

## Trivandrum, India Offers Highly Affordable Total Knee Replacement Surgery

[Total knee replacement surgery in Trivandrum](#), India has become more affordable in recent years. The implementation of the central government's policy to cap prices on implants has led to a significant reduction in the overall cost of the procedure. In August 2017, the government took measures to reduce the prices of knee implants by 59% to 69%, making it financially accessible to a larger number of patients.

Currently, the cost of knee replacement surgery in Trivandrum, India ranges from Rs 1.4 lakhs to 1.6 lakhs. This cost includes the price of the implant, which is imported from the USA. Typically, patients undergo the surgery and stay in the hospital for 3 to 4 days, after which they are able to walk with full weight bearing on the operated leg when going home. Patients who have followed a dedicated prehabilitation program may even be capable of climbing stairs during their [hospital](#) stay. Advanced pain management protocols contribute to the patient's comfort in resuming routine activities within the first week after surgery.
