All Natural Ingredients That Work!

Testosterone is the #1 Most Important Hormone in The Male Body for General Health.

The National Institute of Health (NIH) concludes the average man loses 90% of his testosterone from age 25 to age 70.

TESTOCORE ADVANCED is a natural Testosterone booster with 5 powerful, natural and scientifically proven ingredients.

- Vitamin B6:** Vitamin B6 is part of the B-complex vitamin group and is essential for many functions in your body, including testosterone production and regulation. Vitamin B6 acts as a regulator of androgen production, which is a naturally produced steroid hormone that acts as a precursor for testosterone.
- Magnesium:** A study published in 2011 found that taking about 10 milligrams of magnesium per kilogram of body weight with or without exercise caused testosterone levels to increase. However, the study found that magnesium supplement use in tandem with exercise caused a higher testosterone increase compared to those the test subjects who received supplementation without exercise.
- Zinc:** Adequate zinc directly affects athletic performance and strength development from training because it plays a primary role in anabolic hormone production. Research shows having ample zinc available in the body allows for a more robust release of the three most important anabolic hormones, testosterone, growth hormone and insulin-like growth factor-1 (IGF-1).
- D-Aspartic Acid:** D-Aspartic Acid is an amino acid found naturally in the human body that acts as a neurotransmitter to activate testosterone production. This amazing amino acid elevated testosterone by an average of 42% in a recent study using young men (age 27-37) with average to above average starting testosterone, indicating that you don't need to have low testosterone to benefit from D-Aspartic Acid.
- Tribulus Terrestris:** In 2011, John Hopkins researchers found that men with low testosterone were 60% more likely to suffer from erectile dysfunction and 63% claimed to have a low than desired sex drive. Researchers proved that Tribulus extract acts as a potent aphrodisiac as a result of its ability to secrete increased levels of androgens.
