

Join Covalense Digital at Innovate Asia 2024

We're excited to announce our participation in Innovate Asia 2024! Join us to explore our groundbreaking Catalyst Project, SmartHive xG: Horizon, and attend an exclusive session on how AI-driven strategies are transforming business ecosystems.

Discover SmartHive xG: Horizon

Phase II of SmartHive xG has been recognized as the Best Moonshot Catalyst project in the Growth Challenge category at DTW 2024. This new phase enhances our existing platform with advanced AI capabilities, broadening its application across various industries and connecting key sectors like education, healthcare, and tourism.

Our goal is to create an integrated platform that improves service delivery across industries and supports B2B, B2C, and B2B2X services. By harnessing AI innovations, SmartHive xG will elevate user experiences, unlock new opportunities for partners, and drive growth.

Key Highlights of the Catalyst Project:

- A digital marketplace for onboarding and integrating diverse industry partners.
- AI-powered campaigns and advertisements for hyper-personalization and improved conversion rates.
- Zero-Touch Partnering (ZTP) to streamline interactions and automate processes for efficiency and cost savings.
- Customer 360 (C360) Dashboard featuring analytics and widgets to deliver actionable insights and accurate revenue forecasts.
