

# IVDR's Summary of Safety and Performance: Your Essential Guide

Delve into [IVDR's Summary of Safety and Performance](#) for crucial insights and compliance essentials. Stay informed with our concise guide. The world of in vitro diagnostics is all about accuracy and reliability. EU IVDR includes a requirement to write a Summary of Safety and Performance (SSP) for Class C and D IVDs. The goal is to emphasise transparency and provide adequate public access to summarise the data on safety and performance to patients and intended users, which includes both professionals and lay people where applicable.
