Methodology for Platform Evaluation

To curate this list, we evaluated platforms based on the following criteria:

- **Content Quality and Variety:** Assessing the range and quality of available content.
- **User Experience:** Evaluating the interface, navigation, and overall user satisfaction.
- **Pricing and Value:** Analyzing subscription models and value for money.
- **Mobile Compatibility:** Considering the availability and functionality of mobile apps.
- **Creator Support:** Examining tools and support provided to content creators.
- **Security and Privacy:** Ensuring user data protection and secure transactions.
