How to Layer Indulgeo Serums the Right Way

Skincare is not one-size-fits-all - and neither is your serum routine. Here's how to build your ideal stack based on skin concern:

Concern	Indulgeo Serum Match
Dryness	Hyaluronic Acid Serum + Squalane Skin Hydrator
Oily/Acne-prone Skin	Pore Minimizer Toner + Anti Acne Serum + Sal Moist
Pigmentation	Vitamin C Glow Essence + Cera Moist
Fine Lines/Aging	Vitamin A Night Serum + Squalane Skin Hydrator
Dullness	Hyaluronic Acid Serum + Vitamin C Glow Essence

Layering Tip: Start with the thinnest, water-based serums (like the Hyaluronic Acid), followed by more emollient textures like Vitamin C or Squalane Skin Hydrator. Always follow with moisturizer and sunscreen.
