

## Tim Leonard, CEO of Kuala Lumpur-based podium spot capital group

Reveal some unique features that will differentiate the world's largest casino cruise ship, Crusino, from anything else. Mr. Leonard kindly responded to an interview with World Casino News, giving readers exclusive internal information about the changing developments in the industry.

As planned, Crusino measures 968 feet front and rear, 118 feet to port and 118 feet to starboard, and has 1,330 state rooms that can carry up to 3,200 passengers and 900 crew members. Crusino is operated by PoriumSpot subsidiary Crusino Cruise Services Limited and is expected to sail. [동행복권파워볼](#)

Though not the largest vessel in the world, including casinos, Crusino will offer nearly 200,000 square feet (17,650 square meters) of gambling space across two full decks, easily surpassing everything currently in the ocean, and if deployed successfully, it promises to transform the casino cruise industry.

The launch ceremony also reveals the final design and casino design of the ship.
