

Michigan Partnership With Eight Gaming Offers Improved Player Experience

Astrood Gaming, one of the fastest growing platform providers in North America, continues to expand across several U.S. states. Thanks to a recently concluded deal between the two industry leaders, the company's unique perspective and modern solutions will be available at FourWinds Casino.

A great opportunity for Four Winds:

Through Michigan's leading online gaming services, AST Gaming will be able to provide state-of-the-art platform solutions to players from Michigan. The owner and operator of the famous Powwins Casino is the Pokagon Band of Potawatomi Indian in Michigan and Indiana, so this expansion is a great opportunity for the tribe to further expand their business.

Four Wind Casino is very popular, especially in the Midwest of the United States. Now visitors can enjoy three casinos in Michigan and another in South Bend, Indiana.

Apart from retail casinos, fans in Michigan have been able to enjoy online casinos and sportsbooks online since February 2021.

The partnership with Astor Gaming will be an additional boost to the already popular FourWinds online casino. The casino will have access to state-of-the-art customer service from its providers as well as cutting-edge technology and combustion tools. FourWinds will be in charge of operations when it comes to popular award-winning app Astor design. Four Winds will be part of the renowned Austard's Infinity Engine, a powerful tool that helps operators set higher lifetime values. Real-time operational automation and contextual engagement bring operators and customers closer, and increase engagement and overall player experience.

North America Focus:

Stuff is still the only platform focused on the post-PASPA North American market. It has been adapted to meet the requirements of each operator while complying with regulatory requirements from other states and provinces.

According to a source, Max Meltzer, CEO of Astor Gaming, said, "We are excited to partner with Four Winds Casino. Our team offers expertise across multiple aspects of the North American market, and it will be a pleasure to bring this expertise to Four Winds Casino through market-leading solutions including core PAM technology, customer service, leading bonus features, and front-end development." Clayton Mason, interim COO and CFO of Four Winds, added: "We are excited to welcome Azt Gaming as our new partner to support our iGaming offering in Michigan. Azt offers unrivaled technology and a deep online gaming experience that we can rely on. We look forward to creating an even more exciting and engaging online casino experience for our guests."
