

Abortion Clinic in Borivali – Safe & Confidential Medical Care

When considering a medical termination of pregnancy, choosing the right healthcare provider is crucial for a safe and confidential experience. At Dhanvantari Hospital's [Abortion Clinic in Borivali](#), women receive professional, legal, and compassionate medical care tailored to their needs. With an expert team led by Dr. Poonima Shah, patients can expect high standards of medical guidance and support throughout the procedure.

Why Choose a Certified Abortion Clinic in Borivali?

A certified clinic ensures:

- Legal and Safe Procedures: Conducted under strict medical supervision.
- Confidentiality Assured: Complete discretion for patient privacy.
- Experienced Medical Team: Led by specialists like Dr. Poonima Shah.
- Comprehensive Counseling: Educating women about procedures and aftercare.

Abortion Services Available

1. Medical Abortion (Non-Surgical)

For pregnancies up to 7-9 weeks, medical abortion is performed using FDA-approved pills under medical supervision.

2. Surgical Abortion

For pregnancies beyond 9 weeks, procedures like Suction Aspiration (up to 12 weeks) or D&E are conducted under anesthesia for minimal discomfort.

Pre-Abortion Consultation and Post-Care

- Medical Evaluation: Ultrasound and blood tests ensure a safe procedure.
- Post-Abortion Care: Includes pain management, follow-ups, and contraceptive advice.

Legal and Ethical Considerations

Abortion is legal under the MTP Act for medical and social reasons. It must be performed by qualified practitioners in registered medical facilities like Dhanvantari Hospital's Abortion Clinic in Borivali to ensure safety and compliance.

A Supportive Environment

The clinic provides a non-judgmental, stress-free experience with compassionate care, empowering women to make the best decision for their health.
