

£100M+ Indian Investment Fuels UK Job Growth

The UK Government's announcement of over £100 million in new Indian investment highlights a major step toward economic growth and technological advancement. Zoondia is proud to be part of this initiative, investing £10 million and creating 60 new jobs over the next three years. As a leader in AI, custom software development, IoT, data analytics, and resource augmentation, we are committed to strengthening UK-India business collaboration. As a leader in AI, custom software development, IoT, data analytics, and resource augmentation, we are committed to strengthening UK-India business collaboration.
