

Spinometric Launches 10 Million Euros Of Spinor League Extravaganza

Spinomenal, a leading iGaming content provider based in Israel, has decided to celebrate its 10th anniversary by showcasing an exciting fresh initiative called the Spino League.

Description of the Spinor League:

The unique competition boasts a special top prize of 10 million euros. Besides that, it also offers an outstanding gaming experience.

The Spino League presents a state-of-the-art format that is split into four separate "seasons," which means that all of them consist of four tournaments. It also means that there are a total of 16 split tournaments, with each split tournament featuring an exciting "super round" and several rounds as a cherry on the top, meaning that the aforementioned competitions give players a special opportunity to show their skills.

Throughout the Super Round, players' points are doubled, adding extra fun to the gameplay. In addition, 10 percent of the points earned by players in each round contribute to credits, improving final Super Round results at the end of the tournament, ensuring that all players experience attractive and competitive competition.

The leaderboard rankings are transparent, which means that players can only see them after they reach the qualifying totals displayed within the tournament's tool range. At the end of each round, the aforementioned leaderboard is reset, giving players another opportunity to officially move up the rankings. But that's not all. Once players meet certain score goals set for each round, they also get an additional opportunity to increase their share of the prize pool by a factor of 10.

Each round, including the Super Round, has its own reward. In the entire Spino League, the 10,000,000 euro grand prize pool is the ultimate reward that only the winner can take home! In addition, entry to the tournament is only possible through real-time money play. In addition, every tournament has a minimum qualifying bet per spin.

According to an official press release, Spinomenal CEO Lior Schwartz said in a commentary on the Spino League, "We wanted to celebrate it in a style and in a better way than the Spino

League because we are celebrating our 10th anniversary. Players will love to join a party with opportunities for a spectacular €10m prize pool."

Spinomenal Partners Solidify Their Position in Italy's Regulatory Market With NetBet Italy: According to other news, the provider recently entered into a partnership with NetBet Italia to strengthen its presence in Italy and attract additional players. Through this partnership, Spinomenal's impressive content portfolio will be integrated into NetBet's offerings through Advanced Light & Wonder's open gaming platform. [윌게임](#)
