

BLIX RACK & PINION - ROBOTICS FOR KIDS

With the Blix Rack and Pinion set, you can build six incredible models and explore how this powerful mechanism is applied in real-world machines. From lifting cargo in a forklift and opening garage gates to adjusting a machine bed's position and steering a car's wheels—each model brings engineering concepts to life! Just push the button, watch it in action, and experience the magic of motion firsthand.
